Products shall be installed in Accordance with the Local Code of the Authority having Jurisdiction.

APPLICABLE REQUIREMENTS

NSF/ANSI 61 -2014a – Drinking Water System Components – Health Effects

MARKINGS

The manufacturer is required to apply the following markings:

- Products shall be marked with the markings specified by the particular product standard.
- Products certified for Canada shall have all Caution and Warning markings in both English and French.

Additional bilingual markings not covered by the product standard(s) may be required by the Authorities Having Jurisdiction. It is the responsibility of the manufacturer to provide and apply these additional markings, where applicable, in accordance with the requirements of those authorities.

The products listed are eligible to bear the CSA Mark shown with adjacent indicators 'C' and 'US' for Canada and US (indicating that products have been manufactured to the requirements of both Canadian and U.S. Standards) or with adjacent indicator 'US' for US only or without either indicator for Canada only.

Nameplate adhesive label material approval information:

All markings required by CSA must be permanent and legible. Products shall be labeled in a manner to ensure that all markings are visible after installation. Where it is not practical to place the markings directly on the product or material, the markings shall be located on the container or packaging and/or literature accompanying the product or material. The content consists of:

- manufacturer's identification;
- CSA Mark with "C", "US" indicator;
- qualifiers "Drinking Water" (optional) and "NSF/ANSI 61" below or adjacent the CSA Mark;
- product identification (if applicable).
